1396 April 23, 1997

To whom it may concern,

We oppose the Draft Memorandum being proposed by the FDA. In particular, we object to the definition of "inordinate amount" which restricts the availability & the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

Please hear this and act for the interests of individuals

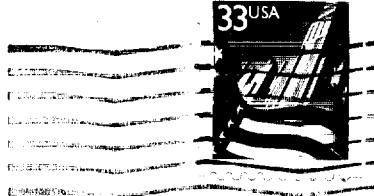

I thank you
Patricia J. McNulty
